We've been made aware of residents in Timsbury being contacted over the phone by an alarm company claiming to be linked with Avon and Somerset Police and a crime and fire prevention campaign.

Please be alert when answering any sales call in which the company claims to be linked to the police. Avon and Somerset Police do not endorse companies or products. If you are interested in improving the security of your home we suggest getting three quotes from reputable firms.

If you're suspicious of a caller who claims to be linked to the police, ring off and call us on 101 to check.
